

WST

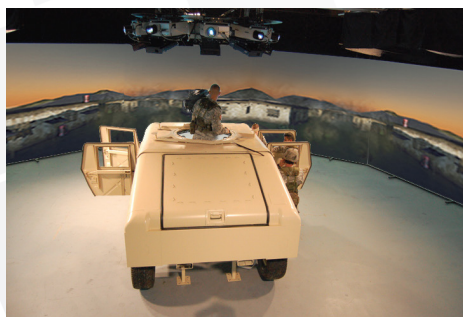

WARRIOR SKILLS TRAINER

Cubic's WST is an extension of our Engagement Skills Trainer (EST) commercial product line. The EST PLUS kit provides offensive and defensive training in convoy, mounted, and dismounted operations.

- Broad spectrum multi-echelon training
- Utilizes Cubic's VTS, COTS and GOTS SAFs (OTB, CCTT-SAF, or OneSAF), models and terrains to create and control exercises
- Comes with Cubic After Action Review (AAR) and supports COTS 3rd party and Gov't-owned AAR tools
- Can utilize U.S. Gov't driving simulations (CWS, CCTT, etc.)
- Interoperable with other EST or DIS/HLA trainers
- Moving eye-point allows offensive action and movement techniques

Crew Operations

Convoy Operations

Dismounted Operations

- Capabilities kits allow you to add:
 - COMMS kits
 - Binoculars / Range finder kits
 - Tracking sensors kits
 - Movement kits (weapon joysticks, footpads, driving stations, leg joysticks)
 - Pursuit station (drive or fly helicopters as friendlies, OPFOR, or VBIED)
 - Tetherless Weapons
 - Medical Evaluation
 - Custom terrains and models
- Configurable up to 360 degree FOV
- Custom configurations including multi-vehicle convoys
- Incorporates driver training for combat convoy operations
- Common weapons with EST
- GSA Contract GS-02F-0024T

Warrior Skills Trainer Possible System Configurations

- Multiple WSTs and EST PLUS systems can be networked to each other and to other devices such as the Call For Fire Trainer (CFFT), to provide realistic training
