

# CUBIC ADVANCED SECURITY SOLUTIONS

## FULL-SPECTRUM GLOBAL SECURITY & TRAINING BASED ON SPECIAL OPERATIONS FORCES CAPABILITIES

Cubic Advanced Security Solutions delivers industry leading, holistic solutions for special operations, security and defense forces worldwide. We offer unparalleled customized services and solutions through our superior training, range design, construction and exercise design and execution.

Cubic Advanced Security Solutions provides a unique offering that merges our special operations training services with our range design solutions to provide an unparalleled, one of a kind, comprehensive solution for high end training requirements. We provide a full range solution that combines a capacity for highly advanced special training with a constructed facility or training complex that enables high quality training for organizations where failure is not an option.

Cubic experts are available to assist with integrated, tailored range and complex designs and build and staff a facility that is customized to each individual customer. We are an experienced and proven team that has global experience from programs in the US, UK, Estonia, Jordan, Kuwait and other locations in southwest and southeast Asia. We have given our customers the capability to operate in highly difficult and dangerous high threat environments including close quarter combat, hostage recovery, aircraft takedown and maritime recovery.

*Custom designed innovative training solutions*
